BUDGET REVISION FORM

Page 2

Proposed Change: Identify the funds that need to be reallocated by account number and category (i.e. 5400 – Materials & Supplies). Identify the budget category that the funds need to be moved from (DECREASE) and the budget category that the funds need to be moved to (INCREASE). When moving funds to or from compensation, separate funds between salary and fringe. Keep in mind that certain budget categories do not generate indirect costs (F&A). These categories are: capital equipment equal to or greater than \$5,000; tuition/scholarships/fellowships; subcontracts over the first \$25,000; participant support; and rental costs of an off-site facility. The total amount DECREASED must equal the total amount INCREASED.
